

COLLECTIVUS

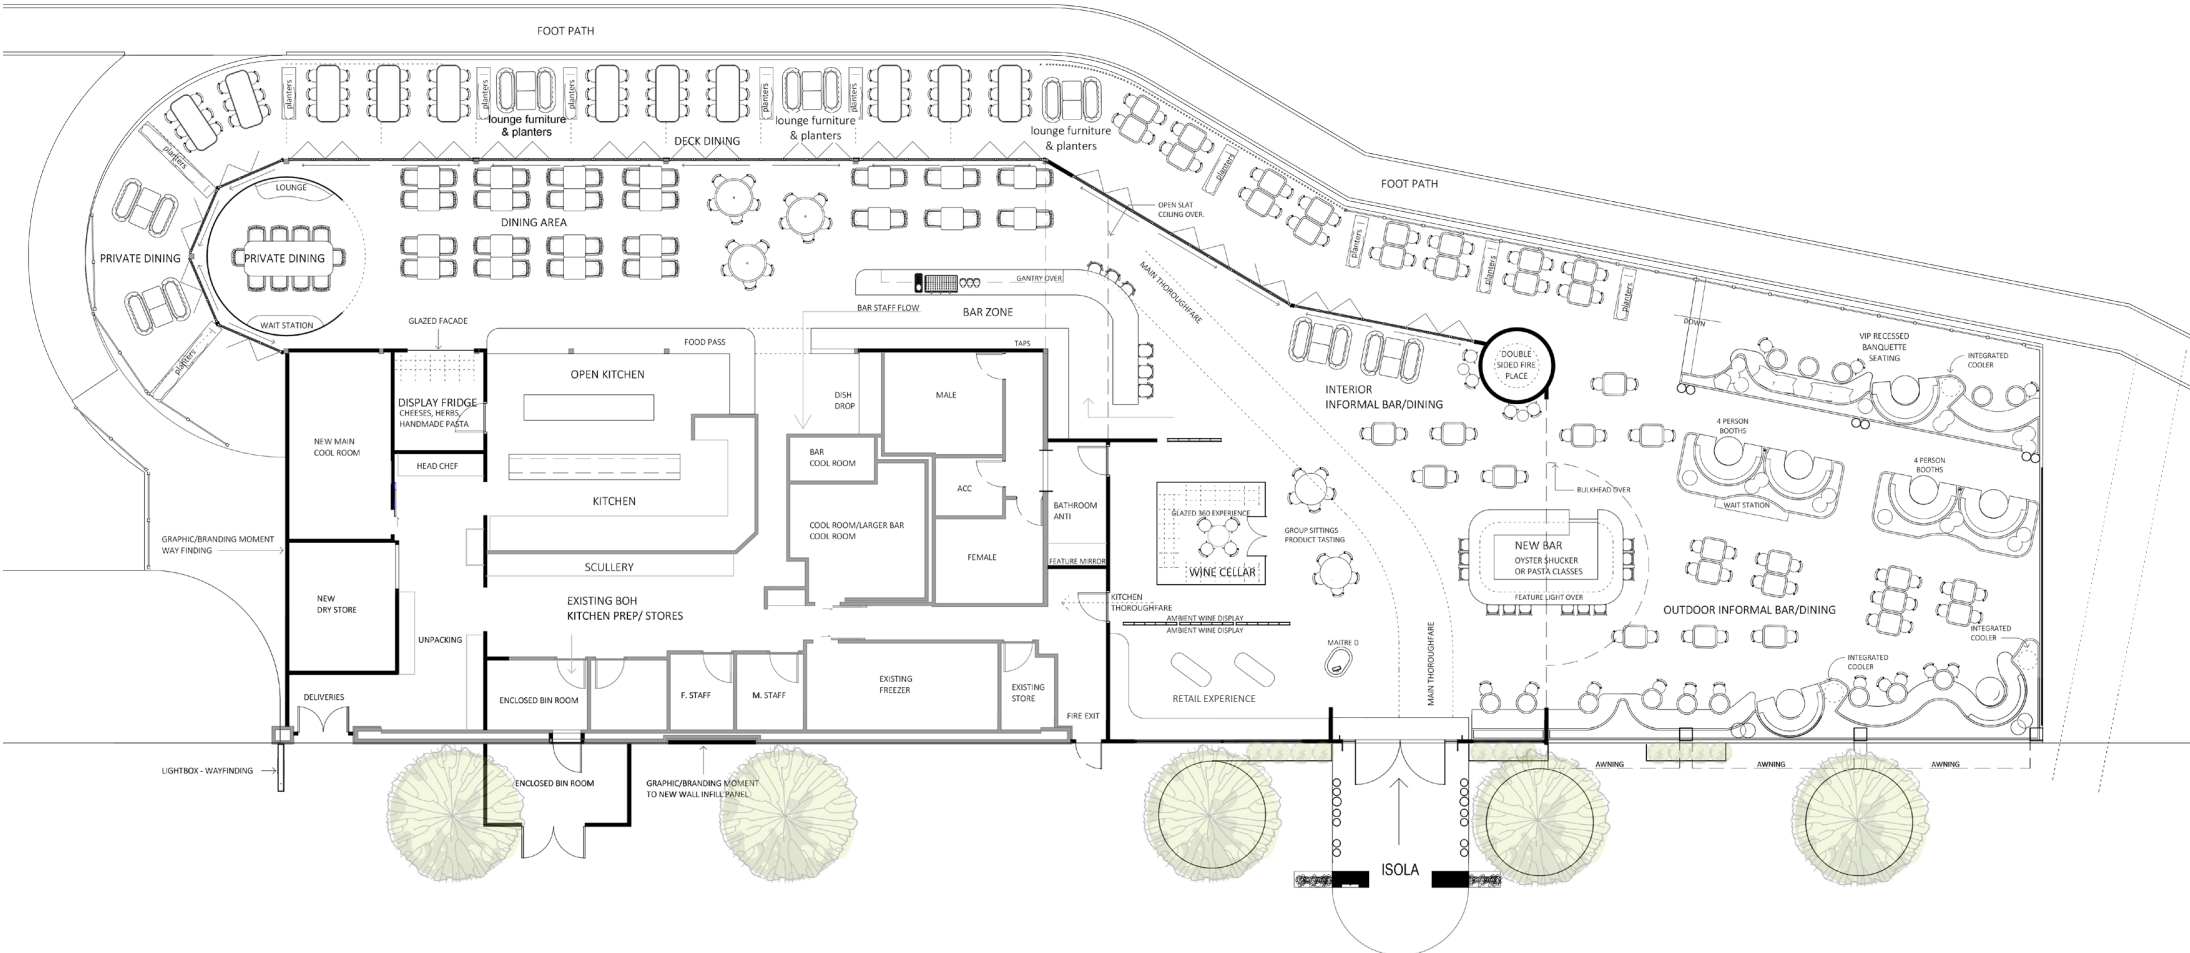

ISOLA

OCTOBER 2024

Blend but ENHANCE.

Uniquely blending the charm of Italian culinary tradition with the natural beauty of Rottneet Island. Upon entry, the eye will be drawn to the breathtaking Indian Ocean view. The impression made by entrance to the space will be enhanced by a feeling of grandeur achieved through high level windows with sky views and use of negative space. The floor plan has been curated to allow for individual experiences. The restaurant can effortlessly accommodate requirements suiting a family, intimate couples, large private groups or tourists. The enjoyment of the restaurant visit can be extended through tastings and retail take-away purchases. When weather is not so sunny, the joy of a stormy sea can be enhanced through fireplace seating and warming meals.

Relaxed, beachside elegance.

Breezy, beachside life with an elegant twist. Textural details and a muted palette complement the serving of the finest quality food and beverages to make for an elegant holistic experience.

Grand Entry.

We will create a grand entrance for Isola featuring a portal supported by natural timbers, while blending seamlessly with the surrounding environment.

The laid-back bar.

Experience the ultimate in laid-back luxury at the low level beach bar, where the indoor elegance effortlessly transitions to a breezy outdoor oasis. Bask in the sun with a tropical cocktail in hand, as you take in stunning ocean views. It's the perfect blend of coastal chic and relaxed sophistication, offering an unforgettable escape from the ordinary.

Fully immersive Italian experience.

The retail experience offered through the restaurants store, cool room and wine cellar allows holiday makers to take their Italian experience with them. This also provides an ideal opportunity to showcase some of the fresh, seasonal produce from the menu. Tasting is not only offered through the menu but additionally through the retail experience located within the restaurant.

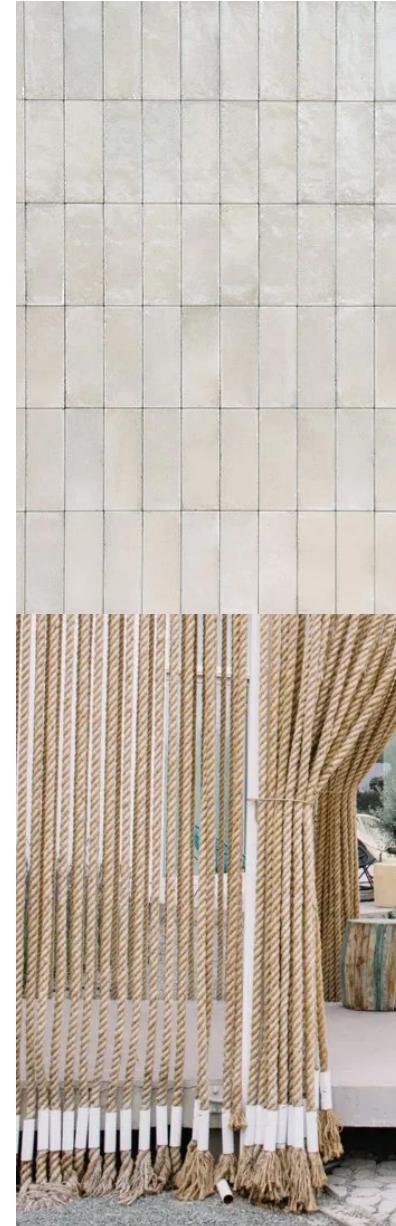

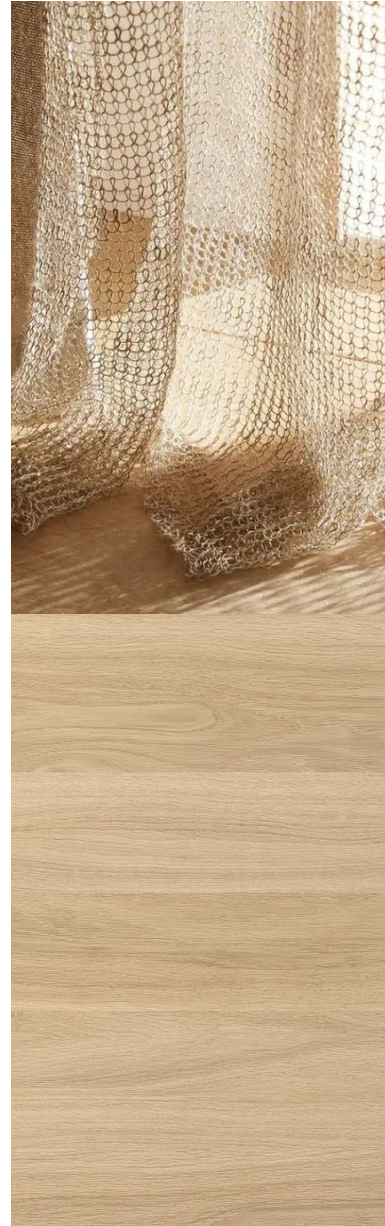

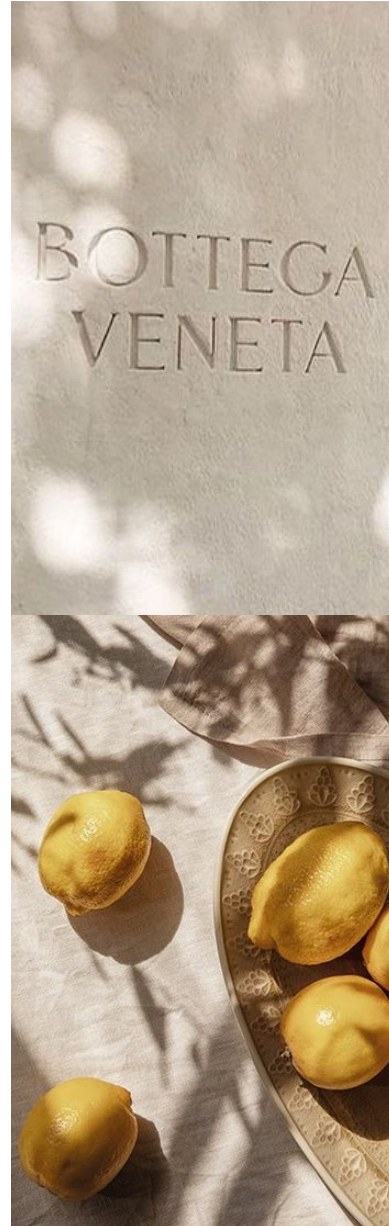

What you taste, you can buy.

ITALIANATE

Traditional Italian elements transposed in a modern way. Inspired by Iconic venues whilst remaining harmonious to the unique island.
